Or working at a. A true sine wave inverter transforms battery power into the very same clean electricity your home system would normally employ, making sure your electronics function at peak. Models are available in 1600VA, 2000VA, 3000VA and 5000VA for 12, 24 or 48V systems. It's powerful enough to supply most. A sine inverter takes the DC output of your solar array, converts it to AC, and does so in a way which replicates as closely as possible the pure sine wave of grid power alternating current.
