Solar Energy Storage Latest News

Overview

Terra Energy secures \$105M to supercharge storage-paired rooftop solar—scaling sales, slashing soft costs, and bundling batteries as TOU rates and reforms spark evening self-consumption demand. By the end of December 2025, China's cumulative installed capacity of new energy storage technologies including lithium-ion reached 144.7GW, representing an 85% year-on-year rise. Lithium-ion companies have come out as the top-rated suppliers on a new long-duration energy storage (LDES). UK energy storage company Zenobe has decided to enter the German market and is looking to acquire battery energy storage systems (BESS) of no less than 1 GW/4 GWh by 2030. Canadian Solar Inc (NASDAQ:CSIQ) said on Thursday its e-STORAGE unit will equip two standalone battery energy storage projects. Read Utility Dive's road map to the year ahead for FERC, affordability, renewable energy, distributed energy resources and more. Customers, don't expect electric bill relief in 2026: 'The cake is baked. 700-MW California solar-plus-storage turns cheap sun into dependable evenings—bifacial trackers. A York County circuit court judge has dismissed a resident-led lawsuit seeking to halt construction of Silfab's PV module assembly plant, ruling that the plaintiff lacked standing and failed to exhaust administrative remedies. Covering a wide array of topics—including solar power, wind energy, hydropower, energy storage solutions, and power grid advancements—this platform offers timely.
