

Solar battery cabinet lithium battery pack discharge ic

Overview

It is suitable for protecting 2-serial-cell lithium-ion / lithium polymer rechargeable battery packs from overcharge, overdischarge, and overcurrent. That is why we design our battery protection ICs to detect a variety of fault conditions including overvoltage, undervoltage, discharge overcurrent and short circuit. This advanced lithium iron phosphate (LiFePO₄) battery pack offers a robust solution for various energy storage applications. Our practical, durable cabinets are manufactured from aluminum, and lined with CellBlock's Fire Containment Panels.
