

# Solar cell panels in Burkina Faso

## Applications

Electric motorcycle

Electric Forklift

Electric Boat

Golf Cart

RV

Audio Equipment

Solar Street Light

Household Energy Storage

Energy Storage System

## Overview

---

Burkina Faso has taken a significant step toward a sustainable future by inaugurating West Africa's first solar panel factory, the Faso Energy Solar Panel Factory. This state-of-the-art facility, valued at \$50 million, will produce 200,000 solar panels annually. It is expected to enhance the. The project is earmarked to deliver 150MWp of solar PV power integrated with a 50MW battery energy storage system (BESS) The Government of Burkina Faso has signed a Public-Private Partnership (PPP) agreement with a local developer and a Dutch clean energy investment firm to develop a major solar. Burkina Faso obtains its first solar panel factory "Faso Energy" with an annual production capacity of 30 MW for an investment of 3 billion CFA Faso Energy's new solar panel manufacturing plant in Burkina Faso, West Africa, inaugurated by the country's Prime Minister, Christophe Joseph Marie Dabire. Burkina Faso will build an 18-megawatt solar power plant in Dédougou with €6 million in financing from the Sustainable Energy Fund for Africa (SEFA), a fund managed by the African Development Bank (AfDB). Location: Kossodo industrial zone. Unit capacity: 260 to 330 watts, representing a production capacity of 80 to 120 MW per year. The initiative, led by the Minister of Energy and Energie Plus, aims to fortify renewable energy contributions, fostering economic.

## Solar cell panels in Burkina Faso
