Solar container outdoor power for backup electric box

Overview

Solar & UPS backup power system battery enclosures for off-grid or grid-connected solar systems. Each system integrates solar PV, battery storage, and optional backup generation in a modular, pre-engineered platform that is scalable for projects ranging from 5kW to 5MW+. Our NEMA 3R Design Battery & Control Enclosures feature white. Check each product page for other buying options. Need help?

. Most industrial off-grid solar power systems, such as those used in the oil & gas patch and in traffic control systems, use a battery or multiple batteries that need a place to live, sheltered from the elements and kept dry and secure. This place is called a "battery enclosure", or what is. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Unbound Solar carries durable solar battery boxes and enclosures that are perfect for your off-grid or grid-tie with battery backup system. A poorly designed system can ruin your batteries. Our Solar Battery Guide will help you size your battery bank properly and keep things running.
