Togo Accelerates Energy Shift With 400 MW Solar Project

Togo is preparing to launch an ambitious 400-megawatt (MW) solar energy development project as part of its strategy to achieve universal access to electricity by 2030. Last week, a ...

African Solar Energy: Togo Leads the Energy Transition

Togo is leading the energy transition in Africa thanks to an ambitious strategy focused on solar energy. The country aims for universal access to electricity by 2030 and aims to increase the ...

Togo Secures Solar Energy Support

These partnerships aim to bolster Togo's renewable energy initiatives, including solar energy storage and photovoltaic technology advancements.

Powering Togo's Future with Renewable Solar Solutions

Togo's solar capacity reached 100 MW by 2024, boosted by the 50 MW Blitta Solar Plant, West Africa's largest when launched in 2021. Aiming for 50% renewable energy by 2025 and universal access by ...

400 MW of solar power for energy independence

With this 400 MW solar project, Togo positions itself as a regional leader in the energy transition. The country demonstrates that strategic vision, technological advancement, and social ...

Meridiam wins a contract to build and operate Togo's second solar ...

Meridiam has signed a 25-year Concession Agreement with the Republic of Togo and EDF for the design, construction, financing and operation of a 64 MWp photovoltaic solar power plant ...

Togo Launches 400 MW Solar Project to Advance Energy Goals

Togo is advancing its renewable energy goals with the launch of a 400 MW solar

project in Kpalassi, located in the country's central region. This initiative is a central component of Togo's plan ...

African Development Bank's EUR26.5 Million Solar Investment to Power Togo

Togo, a small West African nation, is poised for a significant boost in its renewable energy capacity. In May 2025, the African Development Bank (AfDB) approved a financing package ...

Togo breaks ground on solar-plus-storage project

Construction of a utility-scale solar-plus-storage project is now underway in northern Togo. The 25 MW Dapong solar project will include 36,000 solar panels across 52 hectares, along ...
