Solar inverter number plate

Overview

This name plate provides essential information for string or solar edge inverters, supporting safety and compliance. 75" - Narrow and visible for effective labeling. The serial number, usually ten digits long, is indicated on the type label on the front cover of the inverter. 7kW single MPPT single phase Grid-tie PV inverter □ A1---1kW single MPPT single phase Grid-tie PV inverter □ A2---1. So that you can buy the inverter. Placards by PV Labels are created for labeling solar installations and they are engraved using an Industrial Laser with extremely durable Materials with a polymer outdoor rated cap to insure that they hold up in the harshest weather conditions and sun exposure. ASTM D 785, ASTM D 648, ASTM D 696. Home Products and services Solar FAQ Where can I find the serial number (SN) of the inverter?
