Solar photovoltaic panel rental

Overview

Solar leasing is a financing option where you pay a monthly fee to use a solar panel system installed on your home, but the solar company owns and maintains the equipment. You benefit from the solar energy produced without the upfront cost of purchasing the system. Rent batteries and devices to store generated energy for optimal usage. Using a sample address, take a look at the. Knowing this, a number of entrepreneurial companies have removed a major roadblock to solar proliferation by offering to rent solar panels to homeowners who couldn't otherwise afford to go green. Although there are some differences between these rental companies in terms of what they offer, the. With a solar lease, you can reduce upfront costs and pay monthly as a replacement for your electric bill.

Solar photovoltaic panel rental

Solar Panel Rentals

The rental company analyzes energy bills so that a solar array of appropriate size can be selected and installed. Each month, the homeowner pays the rental company for the energy they use.
