Solar power station in China in Egypt

Overview

The Egyptian Cabinet approved a proposal from the State Grid Corporation of China to develop two solar power projects with a combined capacity of 900 megawatts, as per a Cabinet statement. China Energy Engineering Group Co. (Energy China) has officially handed over the Kom Ombo 500-megawatt photovoltaic power station — the largest standalone solar project in Egypt — after completing all construction works and receiving the Provisional Acceptance Certificate from the client.
