Sony Microgrid

Sony partners LF Energy on open-source microgrid

California-based LF Energy is working with Sony Computer Science Laboratories to launch an open-source microgrid project. The Hyphae web services aim to automate peer-to-peer ...

An Open-Source Microgrid Project from LF Energy and Sony CSL

Sony CSL's Hyphae software, Autonomous Power Interchange System (APIS), automatically and efficiently distributes locally produced renewable energy over a DC grid to work ...

Sony Microgrid

This paper provides a comprehensive overview of the microgrid (MG) concept, including its definitions, challenges, advantages, components, structures, communication

Sony goes open source with tech that regulates renewable energy

TOKYO -- Sony will make software code for regulating microgrids freely available, hoping to popularize the use of renewable energy in these small local power networks.

Sony Partners with LF Energy to Automate Peer-to-Peer Distribution ...

Partnering with Sony CSL brings LF Energy closer to its goal of building the first interoperable AC- and DC-ready microgrid that is self-contained, operational off-grid and able to ...

Sony : Microgrid System Core Module (Power-interchange ...

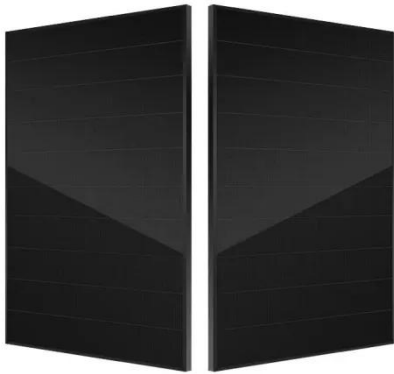

The adoption of renewable energy can take many forms, but Sony CSL has undertaken research and development of electric power systems known as microgrids, which are decentralized, highly ...

LF Energy and Sony CSL to partner on Open-Source Microgrid Project

Hyphae is a new microgrid initiative from LF Energy and Sony Computer Science

Laboratories aimed at automating peer-to-peer distribution of renewable energy thus improving ...

Sony CSL Launches Open-Source Microgrid Project to Automate P2P

...

Sony Computer Science Laboratories has launched an open-source project intended to make microgrids more resilient using peer-to-peer power distribution. Called Hyphae, Sony CSL is

...

LF Energy Partners with Sony Computer Science Laboratories to ...

LF Energy, a Linux Foundation nonprofit seeking to accelerate the energy transition of the world's grids and transportation systems through open source, along with its newest member, (Sony CSL), a ...

Partnership between LF Energy and Sony CSL on an open source ...

Open Renewable Energy partnership

between Sony CSL and LF Energy aims to build an open source platform with the goal of creating resilient and resilient small networks.
