

KREATYWNY ENERGY POLSKA

South sudan energy storage solar power generation enterprise

Overview

A public-private partnership in South Sudan has launched the country's first major solar power plant and Battery Energy Storage System (BESS) in the capital Juba, where it is expected to provide electricity to thousands of homes. South Sudan has taken a significant step toward renewable energy with the launch of its first large-scale solar power project. This is a major step in reducing the country's electricity access. Harnessing renewable resources to illuminate communities and drive development. [Learn More Shaping the Future Powered by Nature.](#), a subsidiary of the Ezra Group, this project marks.
