

# Spain s wind power and energy storage policy

**Higher Anti-Rust Performance  
Lower Internal Impedance**

## Spain s wind power and energy storage policy

---

### Spain sets new 2030 energy storage target of 22.5 GW

By 2030, Spain expects to install 22.5 GW of energy storage projects, including included battery energy storage, pumped hydropower and solar thermal plants. The plan also aims for 76 GW ...

---

### Spain energy storage law: Ultimate grid boost approved

The new law aims to accelerate Spain's transition to renewable energy by simplifying the process for connecting new projects to the grid. By providing a clear and supportive regulatory ...

### Spain passes decree strengthening grid resilience and boosting energy

The Spanish government has approved a royal decree aimed at strengthening the power grid's resilience, robustness and stability in response to the nationwide blackout in April.

---

### Spain's EUR700 Million Plan to Boost Energy Storage and Renewable

## Power

The program supports hybrid projects, which combine storage with renewable energy, such as solar or wind farms. Spain's electricity grid already generates more than half of its power ...

## GEM wind and solar in Spain brief June 2024

Spain's natural advantages in wind and solar supply, combined with the right mix of policy strategies, offer a realistic chance of meeting the 2030 renewables targets reaffirmed at COP 28.

## Major Breakthrough in Spain's Energy Storage Policy: Energy Storage

Per the updated regulation, all renewable energy power stations (regardless of energy storage configuration) will receive priority protection during grid congestion, becoming the last to be ...

## Spain Increases its Renewable Share but Soon May Need to Replace ...

According to a draft government report

issued in June, Spain's goal is to raise the share of renewables to four-fifths by 2030. The new climate plan includes higher targets for solar and wind ...

---

### Spain tweaks 2030 NECP, raises energy storage and hydrogen targets

The Spanish government has made few changes to its final 2023-2030 National Integrated Energy and Climate Plan (NECP) compared to the draft version, raising only energy ...

---

### Spain increases energy storage target in NECP to 22.5GW by 2030

Spain's renewable energy targets included in the NECP have changed quickly, and this is not only apparent at the downstream level. The country aims to launch a manufacturing scheme ...
