With that in mind, here are nine of the best green energy stocks for investors looking to profit on the still-growing trend toward sustainability. Price target data is provided by S&P Global Market Intelligence. Energy storage systems are increasingly in demand to increase the effectiveness of solar power arrays. The landmark tax-and-spending legislation signed into law by President Donald Trump on July 4 changed a lot of policies and tax incentives. Most notable for green energy advocates is the September. The solar energy industry builds and installs devices to capture energy from the sun and convert it into electric power. Green energy stocks got a lift thanks to the clean energy incentives in the Inflation Reduction Act of 2022 (IRA), along with the dual catalysts of rising. Companies such as NextEra Energy, Enphase Energy, and Fluence Energy are at the forefront of developing energy storage solutions that support green initiatives.
