# **Tajikistan exports energy storage to households**

## Overview

---

Summary: As Tajikistan embraces renewable energy solutions, household energy storage batteries are becoming vital for stable power supply. This article explores market trends, technical advantages, and real-world applications tailored for Tajik families and. The Tajikistan Development strategy by 2030 aims to scale up its electricity capacity from 5.1 GW in 2021 to 10 GW to enable 10 TWh of annual electricity export. Consequently, the government aims to achieve this ambition by increasing annual hydropower generation, currently accounting for 90% of. Jan 29 (Interfax) - Electricity exports from Tajikistan increased 37.67 billion kWh for a sum of 913 million somoni, up 7. The country. &quot; takes the first place - 48-50%. Energy intensity of industry in Tajikistan, i.e., the amount of energy consumed on average per unit of product, is approximately 10 times high at such energy resources as oil and gas. Russia and Kazakhstan are responsible for the major part of these resources. Powered by DaHu SunContainer. A new global report warns that in Tajikistan, major gaps remain in heating, energy reliability, and clean cooking access; photo: Asia-Plus. This milestone, documented in the international SDG7-2025 report by the UN, World Bank, WHO, IEA, and IRENA, places the country alongside Eastern European and South Caucasus states in.
