Overview

The US Energy Storage Monitor is a quarterly publication of Wood Mackenzie Power & Renewables and the American Clean Power Association (ACP). Each quarter, new industry data is compiled into this report to provide the most comprehensive, timely analysis of energy. The DOE Global Energy Storage Database provides research-grade information on grid-connected energy storage projects and relevant state and federal policies. All data can be exported to Excel or JSON format. The following resources provide information on a broad range of storage technologies. Each quarter, we gather data on US energy storage deployments, prices, policies, regulations and business models.

The latest new energy storage data catalog

US Energy Storage Monitor , Wood Mackenzie

Each quarter, we gather data on US energy storage deployments, prices, policies, regulations and business models. We compile this information into this report, which is intended to provide the most ...

U.S. Energy Storage Monitor , ACP

The US Energy Storage Monitor is offered quarterly in two versions - the executive summary and the full report. The executive summary is complimentary to member companies and ...
