Overview

Hermann Ebbinghaus' memory tests, published in 1885, involved memorizing series of, and recording the success over a number of trials. The translation does not use the term 'learning curve' — but he presents diagrams of learning against trial number. He also notes that the score can decrease, or even oscillate. The first known use of the term 'learning curve' is from 1903: "Bryan and Harter (6) f.
