## Overview

---

This analysis provides definitive benchmarking data for RTB BESS asset valuations across Germany, United Kingdom, Austria, France, and Ireland, extracted from our routine Asset Valuation report for H2 2024. It's our first week back to normal service so here's a roundup of the past few weeks of BESS action in Europe, with projects moving forward in Romania, Denmark, the UK, France, Spain, Albania, Germany and Austria. The projects combined total well over 1.5GWh grid-scale battery energy storage system.

Understanding the complexities of battery energy storage system (BESS) pricing is crucial for confident decision-making in today's dynamic renewable energy markets. The need for rapid expansion of storage projects across Europe, driven by renewable energy integration, highlights the importance of. The economics of battery storage systems (BESS) in Europe look much rosier following changes to the European Union's (EU) power pricing structure in October, with several countries offering the potential for BESS profits to rise more than a 15%, according to Rystad Energy analysis. An executive summary of major cost drivers is provided for reference, reflecting both.
