What does PPA mean for solar power plants

Overview

The power purchase agreement (PPA) is a service/financial agreement under which a customer or host agrees under a contract to purchase power at a set price from a third-party project developer, also known as solar service provider. The simplest one is acquiring the system by paying the upfront price, but you can also opt for a power purchase agreement (PPA). This is an easy and affordable option that allows you to reduce your carbon footprint and electricity. Solar power purchase agreements, often called PPAs, are a solar financing option that allows you to get solar panels that will reduce your electricity bills installed on your roof for \$0 upfront in exchange for monthly payments. In this model, a third-party developer owns, operates, and maintains the. What is a PPA?
