# **What energy storage equipment does hanoi office building have**

## Overview

---

Mun Hean Vietnam has successfully completed the supply and commission of two Sinexcel 115 kW BESS units (Battery: 2 x 230 kWh) to Capital Place in Hanoi. More than a technical upgrade, the BESS installation is a strategic step toward long-term environmental performance — optimizing energy use. In this paper, the study results analyze the financial efficiency of the grid-tied rooftop solar power system with battery storage and compared it to the grid-tied rooftop solar power system without battery storage. This article's for: Vietnam's renewable energy capacity.

## What energy storage equipment does hanoi office building have

---

### Hanoi businesses embrace energy conservation

"We have adopted various solutions, including variable frequency drives, inverter technology, and solar power systems, to save energy while limiting emissions.
