

Yerevan electric vehicle costs

Overview

In a significant move towards sustainability, the Yerevan Municipality recently invested \$644,000 to purchase 21 electric vehicles. The bulk of the acquisition includes 20 BYD Song Plus electric crossovers from China, as well as a high-end 2023 Mercedes EQE500 SUV. In the first eight months of this year alone, more than one in four newly registered vehicles (27%) were fully electric. Charging the electric vehicle costs him a maximum of 25,000–30,000 drams per month (\$63–76), whereas fueling his old car used to take about 70,000 drams (\$180) out of the family budget each month. Hetq Media broke the story in an. These initiatives include tax exemptions, reduced import duties, and subsidies for EV purchases, making electric vehicles more accessible and affordable for the average Armenian consumer. With government support for greener transportation and an expanding charging network, the future of EV in Armenia is bright. Industry experts predict an even greater.
