Zhilin New Energy Photovoltaic Panel

Overview

ZN PVT solar panel boast a total energy utilization rate (electricity + heat) of up to 81%. This is 4 to 5 times more efficient than standard PV panel. With customer-centric and technology as the foundation, Zhongyi New Energy has profoundly dug into the photovoltaic industry for decades and become a leading solar photovoltaic company in China. From innovative battery technologies to intelligent energy management systems, these solutions are transforming. footprints in Japan, India, Germany, Italy, Switzerland, UK, USA, Canada, Chile, Australia and Africa. For any product, you could contact us. Ningbo Zhongyi (formerly known as Ningbo Reneled Energy Co.) started producing solar components in 2013 and has obtained TUV, CE, CQC and other certifications. We have the most advanced automated production line in China, with. LONGI is one of well-known Chinese solar energy companies in the solar PV industry, known for its solutions, including BIPV (building-integrated photovoltaics), BAPV (building applied photovoltaics), agriculture-solar complementary solutions, eco-friendly power station solutions, and hybrid power. Zhejiang Province, situated south of Jiangsu, is another powerhouse in solar panel production in China. Zhejiang's manufacturers excel in producing a range of solar products with competitive solar panel price.
